According to Respondent, Complainant had previously also filed complaint with respective Authorities against him. Therefore, Respondent has requested to dismiss the application of Complainant with costs.</p> <p>6. After hearing learned counsels for the parties at length; question that emerges for consideration is "Whether the applications filed by Complainant under section-340 of the Code of Criminal Procedure, 1973 and under section-35 of RERA Act, 2016 should be allowed?" In application submitted under section-340 of the Code of Criminal Procedure, 1973 the complainant has pleaded that the respondent has made false averments regarding not providing NOC to the complainant in application dated 08.06.2022. The respondent in his reply has denied the allegations of the complainant and stated that he had provided NOC only for joint construction of houses in 7 plots owned by complainant and his family. Respondent has further stated that he has not provided any NOC for change in building elevation, symmetry etc. to Complainant. After reading the application filed by respondent, which the complainant has alleged as false, it appears that respondent has mentioned that he has not provided NOC for approvals, boring work etc. However, the Respondent has not mentioned that Complainant has never taken any NOC. 	<p>has not said that he has never given NOC to complainant; the submissions of the Respondent in alleged application do not seem to be false. Hence, there is no need to take any action against the Respondent under section- 340 of Code of Criminal Procedure, 1973; and the application filed by the Complainant in this regards is disallowed.</p> <p>Complainant has also filed application under section-35 of the RERA Act, 2016 for enquiry into the validity and legality of various documents/ permissions obtained by Respondent. However, the Respondent has denied the claims made by the Complainant in his application and has submitted completion certificate of phase 1 of the project. On scrutiny and examination of Annexure-1 (list of documents to be inspected and enquired) submitted by Complainant with his application it appears that the complainant has requested for inspection of all approvals, records, books of account, bank accounts, completion certificate etc related to the project from year 2009 till date. In light of the above, it is important to mention that the approvals issued or completion granted by any competent Authority is done only after following the due process in accordance with the laws prevalent at that time. It is also noteworthy that Complainant is seeking for inspection of approvals given in 2009 when the mega project along with its phases is already registered with CGRERA. CGRERA, at time of any</p>
